BLAINE DID HEAR BURCHARD

ACCORDING TO COUNT SECKEN-DORFF, WHO WAS RIGHT THERE.

When Speechmaking Ended Mr. Blaine Went to Whitelaw Reld and Asked "Rum, Romanism and Rebellion" Couldn't He Kept Out of the Papers.

WASHINGTON, May 13.-Count Seckendorff has a personal recollection of the Rum, Romanism and Rebellion episode of 1884 which differs from the version left in manuscript by the late Andrew Devine. the stenographic reporter who accompanied Blaine on his campaign and whose death last week brought forth the tale. The manuscript says that Mr. Blaine told Mr. Devine after Dr. Burchard's speech had got into the evening newspapers that "Dr. Burchard had read his speech in a singsong voice and Mr. Blaine, who was thinking of what he should say in reply, did not pay particular attention to it. had never once heard the fatal speech of Dr. Burchard until Mr. Devine called his attention to it in the newspapers."

This version of the famous Burchard incident of the campaign of 1884," said Count Seckendorff, "has been current so long, and has been repeated so often by people in no position to know what actually happened, that as one of two I venture to state what really occurred on that occasion.

On the morning of the day on which Dr. Burchard delivered his infortunate speech I ascended the stairs of the Fifth Avenue Hotel to the parlor floor where the meeting was taking place. At the head of the stairs and at some surrounded by the group of ministers of found Mr. Whitelaw Reid, and remained talking to him until Mr. Blaine had finished his reply to Dr. Burchard's address. Waiting only long enough to shake hands with the few ministers standing nearest through the group in the direction of where Mr. Reid and I stood. He immediately ately said that Dr. Burchard's address had placed him in a most embarrassing position and asked Mr. Reid if anything could be done to suppress its publication

"Mr. Reid thought that the Associated Press would throw no difficulties in the way of a proper revision of the speech, though he drew Mr. Blaine's attention to the fact that at least one of the oppoto the fact that at least one of the opposition papers had had present at the meeting a reporter who had taken stenographic notes of Dr. Burchard's address.

"After further talk it was decided that I should go as fast as possible to the office of O'Rourke's City News Association, which I believe was at that time turnishing the Associated Press with rnishing the Associated Press with part of its local news, and there secure the copy of Dr. Burchard's speech for part of its local news, and there secure the copy of Dr. Burchard's speech for revision by Mr. Blaine. When I reached the offices of the news association, then located in Nassau street. I found that three or four pages of the account of the meeting had already gone out for distribution and that they were beyond recall. I immediately returned yond recall. I immediately returned to the Fifth Avenue Hotel to report the failure of my mission to Mr. Blaine. Only an hour had elapsed since the close

On the Saturday morning preceding the election, the day devoted to a speechmaking tour through Connecticut, I called at the Fifth Avenue Hotel and found the Blaine family at breakfast in a private dining room on the Twenty-third street side of the hotel. There were present at this breakfast besides Mr. and Mrs. Blaine has besides Mr. and Mrs. Blaine replying to Burchard's speech in the course of the day threshed out in detail. FIREBOAT SAVES ALEXANDRIA. Help From Washington Prevents Destruction of Historic Town.

WASHINGTON, May 12.-Historic Alexandria, eight miles from Washington and once a part of the city, came near to being wiped out by fire to-day. The timely arrival of two engines and Washington's fireboat saved the little Virginia city that was a thriving place long before the Revolution and where George Washington from boyhood up came regularly

paign against the Indians.

About 12 o'clock the fireboat got to Alexandria. When the call for assistance came the fireboat was high and dry, having her bottom painted, and her boilers were cold. A navy yard tug pulled the fireboat into the water and by the time she got to Alexandria in tow of the tug ten minutes the fireboat had drowned

out the fire.

The loss was between \$75,000 and \$100,000.

TAFT WORRIES PORTO RICO

WHOLE ISLAND BLAMED FOR ONE PARTY'S FAULT.

Present Pernicious Power of the Unionists Built Up by Favor of Governors Winthrop and Post-Munoz Still Defiant-t. S. in the Island to Stay.

Special Cable Despatch to THE SUN. San Juan, P. R., May 12 .- President Taft's message to Congress on Porto Rico had the effect of a bombshell here. Its sweeping condemnation arouses resentment, and strong protests are made against the charges of unfitness and ngratitude contained in the message. It is pointed out that the storm raised in Washington was caused solely by the Unionist party, which controls the House of Assembly. The other political elements have not participated in the dispute, and they oppose the action of the Unionists.

Dr. J. C. Barbos, leader of the Republican party, who is serving his third term in the Executive Council, commenting on the message, said: "It has not sur prised me; I expected it. It is unjust in treating all Port Ricans alike. Necessarily we will all have to suffer the consequences of errors committed by half a dozen politicians who obtained open support of the Americans controlling the insular government. The Republicans, Labor party, independents and business men. who have no representation in the House of Delegates and who constitute a majority in the island, have been represented by a handful of men who are anti-Americans and do not think or act as we do." Santiago Iglesias, organizer of the American Federation of Labor here, said: "The message is a strong reproof generally, not discriminating between classes. while the Unionists are solely responsible Mr. Taft accuses Republicans, Unionists, Socialists and neutrals, who compose large majority of the people but who have not the slightest responsibility for the quarrel between the Unionists and the Executive Council. These Unionists have been favored by Governors Winthrop and Post, prejudicing those who have done nothing wrong and who are treated by Mr. Taft as if they had. It is high time the Federal Government impressed upon the island that America is here to stay and will be so forever, and that American

institutions must be respected." Organized laborers are dissatisfied with the message, seeing in it retro-gression for Porto Rico. The labor ele-

NEGRO SLASHED A PARADER AND SPRINTED AWAY.

He Took Refuge in a Street Car After s Breathless Run Through Many Streets Pursuers Rushed the Car and Threw a Policeman Out of a Window

One resentful negro with fighting blood caused a lot of excitement last night in the vicinity of Eighth avenue and Broadway when he undertook to reply with a razor to a jest that had been hurled at him by a marcher in the circus parade of Company I of the Twelfth Regiment N. G. N. Y. Before affairs were settled the negro and the man who had ventured the jest were both in Roosevelt Hospital and the peace of the region thereabout had been greatly disturbed.

Company I of the Twelfth is planning to give a circus on Friday and Saturday of this week. To advertise the event the company turned out last night to parade through the streets about the armory with clowns in costume, transparencies and the like. BOY KILLED BY CAR

A Few Minutes After He Had Plucked Flowers for His Invalid Mother.

George Buchner, the six-year-old son of Rudolph Buchner, a custom tailor at 244 Franklin street, Greenpoint, was instantly killed by an open car of the Lorimer street line in front of 85 Greenpoint avenue yesterday afternoon. Twenty minutes before the child met his death he had picked flowers in his yard and given them to his invalid mother, who placed one in a buttonhole of his coat. Then the child set out with a little white fox terrier known as Boy and in the street he met two of his playmates, Walter Farmer and Willie Bach.

The three boys began to steal rides on wagons and when the last wagon turned from Franklin street into Greenpoint avenue the driver saw them and ordered them off. Farmer and Bach ran to the sidewalk while Buchner turned to cross the car tracks. A car in charge of Motorman Michael Mullen, bound for the Greenpoint ferries, was coming rapidly down an incline and two wheels passed over Buchner's abdomen. DROPS FOUR HEAD WEIGHERS

COLLECTOR LOEB KEEPS ONLY ONE OF THE \$2,500 MEN.

TWO NEW JERSEY MONUMENTS The Offices of the Rest Are Abolished Ten Efficient Assistants Made Deputy Weighers With More Pay and Weighers' Offices Removed From Docks,

Collector Loeb made another move vesterday toward administering on the principles of a workman, as he expressed it, the customs business of this port. He dismissed four weighers, Charles H. Wardell, Jr., Archibald Edmonstone, John W. O'Brien and Charles De Witt Drew, each of whom received \$2,500 a year. In explanation of the dismissals the Collector

made this statement: "Under the plan of reorganization of the weighing department perfected by Surveyor Clarkson, Deputy Surveyor Vail and myself, and after a full conference and with the entire approval of the ence and with the entire approval of the Treasury Department, the offices of four of the five United States weighers have been abolished. There is now but one United States weigher, Thomas D. Hyatt, who was of assistance to the Government in the prosecution of the sugar frauds and the cheese and fig cases.

"The weighers' offices on the docks have been taken away and the adminis-trative work heretofore performed there

have been taken away and the administrative work heretofore performed there has been brought into the Custom House, thus permitting a closer supervision and inspection of the work of the assistant weighers. The change has effected a saving to the Government of over \$5,000 per amum. The port has been divided into eight weighing districts instead of five as heretofore, and each weighing district will be placed in charge of a deputy United States weigher.

United States weigher.

"Ten of the most efficient assistant weighers, most of whom rendered material aid to the Government in bringing to light the underweighing of sugar, cheese

and figs, have been designated as deputy weighers, and their salaries increased from \$1,400 to \$1,600 per annum."

Collector Loeb does not fear that the four weighers who have been dismissed will succeed in getting back their jobs. Technically they have not been dismissed; the Collector has simply sholished the

Ready-for-service or to order.

There are liveries that earn the name merely because mediocrity is hidden beneath the glamour of a few brass buttons or a fancy collar."

There are other liveries, designed to meet the needs of employers whose servitors must reflect the culture of a well-ordered household.

To this latter class belong the distinctive garments of our own productions.

For dress Liveries we use only Wulfing Imperial Cloths-the very best-in all accepted colorings. and for stable Liveries the most reliable whipcords. Trimmings and finish are in keeping with the distinctive models.
